AFERA TECHNICAL SEMINAR 2011

EUROPE'S TECHNICAL EVENT FOR THE SELF ADHESIVE TAPE INDUSTRY

'When we first developed the concept of the Afera Technical Seminar as a technical forum for the European tape industry, we were motivated by the belief that better communication between suppliers and customers as well as technical advancement between all parties involved in the industry was desirable' quoted former Afera Technical Committee Chairman Lutz Jacob. Running TC Chair Chrétien Donker believes that our industry is driven through technical innovation and speed of development to cope with rapidly changing demands of both our industry and its customers. At Afera, we are pleased to be able to contribute to sustaining the momentum of the four last seminars, which proved to be outstandingly successful and clearly confirmed that the programme supported our industry to progress.

TECHNICAL TOPICS

The seminar will be performed by experts in their respective fields addressing a wide range of themes, topics and issues. We examine pioneering product developments and processing advances. We look at ways in which our industry can do things better, more effective and cost efficient – with enhanced quality as target. And we focus attention on the concepts of experience of all industry players, to promote a wider understanding of

technical challenges, motivated by the search for real solutions.

PAPER SUBMISSIONS

Afera has the pleasure to invite you to participate as a speaker at the upcoming Afera Technical Seminar to be held on 13-15 April 2011.

The Seminar will take place in the Marriott Hotel in Brussels, the political heart of Europe and easy to be reached by everyone. This unique open event is expected to be visited by at least 120 delegates.
