

## PRESS RELEASE

tape & functional film **EXPO**  
RAI, Amsterdam ● March 14 – 16, 2023

tape & functional film **EXPO**  
Huntington Place, Detroit ● June 6 – 8, 2023

**Select Global Events is delighted to announce the arrival of  
Tape & Functional Film Expo, co-located with Silicone Expo!**

**The Rai, Amsterdam - March 14-16 March 2023**

**Huntington Place, Detroit - June 6-8 2023**

Tape & Functional Film Expo is the first dedicated exhibition and conference for the industrial Tape & Functional Film industries within Europe and North America. Companies will be exhibiting from the entire manufacturing supply chains of both industries, and we are delighted to confirm that **Mactac, Adhesive Applications, AVX Tapes** and **SELF** are already on board as founding supporters and Advisory Board Members. We are also delighted to confirm that the **AFERA** Association will be working closely with us to advise, promote and help us propel the industry forward.

The two events will be bringing in buyers, engineers, and R&D Specialists from a range of end user markets from the high value sectors including, Electronics & Semiconductors, Medical, Flexible Circuit Boards, Solar Energy, Energy Storage, and Flat Panel Displays as well as high use industries such as Automotive, White Goods, HVAC, Industrial and Construction.

Tape & Functional Film Expo will be co-locating with Silicone Expo, the first commercial trade shows and conferences for the Silicone industry. Exhibitors will be presenting from across the entire supply chain of the large and ever developing industry. Given the crossover and relevance, Silicone Expo is the perfect show to be co-located with.

*"We are delighted to bring to market these new European & North American exhibitions and conferences for the tape and functional film industries. Given the importance and wide range of end users, plus continued development, and applications into emerging and high value sectors, we see this as a huge opportunity to provide a platform that these extensive markets deserve. Deciding to co-locate the events with Silicone Expo was an easy decision given the synergies between all markets. Combining will ensure an even better value proposition for those attending. We thank all those involved in helping to make this happen".* **Nathan Reuby, CEO, Select Global Events**

### **Testimonials from our Founding Advisory Board Members:**

*"As a founding member, Adhesive Applications is excited to help contribute to the success of Tape & Functional Film Expo. Specialized events such as this really drive specialty applications and, more importantly, technical advancements. We look forward to showcasing our robust line of silicone tape products and networking with the industry's leading companies, key players, and technology experts. Tape & Functional Film Expo gives us another opportunity to learn how we can provide innovative solutions for our industry partners."*

**Judette Savino - Vice President of Marketing & Sales at Adhesive Applications**

*"Mactac is excited to be a founding member of the Tapes and Functional Films Expo. This unique event will enable all members of the value chain to meet at one event and make connections that will lead the tape industry to develop new and innovative solutions."*

**Janet Page - Business Manager for the Industrial and Medical Tapes division at Mactac,**

*"We are very happy and excited to be part of this new event that will surely raise the profile of the tape and film markets. To be given the chance to meet with individuals from several sectors in one week is very appealing."*

**Atakan Özel - COO at AVX Tapes.**

*"We are excited to be part of a trade show focused on adhesive tapes that has never been held before. We look forward to networking with companies in the industry in a much more specific way."*

**Bárbara Menéndez Águila - COO at SELF**
